APPLES

McIntosh Black. Same as McIntosh Red, excepting that it is very much darker in color and more attractive.

Red Delicious. Same as Delicious excepting it is solid red and juicier. A wonderful apple. The leading seller among apple trees. A great commercial variety. Nov. to March.

Red Gravenstein. A beautiful Gravenstein with solid red color. Ideal for roadside selling. August to October.

Red Rome Beauty. Like Rome Beauty, excepting for darker color. A leading commercial variety. A good baking apple.

Red Spy. A bright red Northern Spy.

Black Rome Beauty. Like the Rome Beauty excepting that its color is very dark red and it has a much better flavor. November to February. Good commercial variety.

Gravenstein. Large; striped; juicy and tender; vigorous and productive. Best sauce apple. August and September.

Grimes Golden. High quality; medium large; yellow. Tree hardy and productive. November to March.

Jonathan. Medium to small. Yellow skin nearly covered with lively red. Fine grained and tender. Tree slender and spreading. Good commercial sort. November to April.

Jonathan, Double Red. An improved variety of Jonathan. Very deep colored.

King of Tompkins County. Large, striped red and yellow. Vigorous grower. October to November.

McIntosh Red. Medium size; red, white flesh, tender, juicy. Productive. Very hardy. November to February.

Red Stayman.

Spitzenberg, Esopus. Medium to large; deep red; flesh yellow. Good commercially. Fine for baking. November to April.

Stayman Winesap. Large; red striped; juicy; tender. Fine flavored. Good orchard variety. December to April.

Winesap. Medium; dark red; prolific bearer. Best keeping apple. Good market variety in West. December to May.

Yellow Delicious. Beautiful yellow; conical; fine flavor. Vigorous; productive. Commercial variety. December to April.

Yellow Newtown Pippin. One of the best quality apples. Very firm; juicy; crisp; delicious. Commercial variety. December to May.

Yellow Transparent. The most popular early variety. Yellow; acid; tender; juicy. Early, abundant bearer. July to August.

CRABAPPLES

Dolga. Very hardy, fiery red Crab. Desirable culinary apple. Bears young and abundantly. A fine ornamental tree.

Hyslop. Medium size; red with yellow flesh. Productive. Keeps well.

Whitney No. 20. An improved seedling of the Whitney. Very large; red; very productive; good eating. August.

Commercial Planting Rates

DOLGA CRABAPPLE

CHERRIES, Sour

Late Duke. Late; light red; large; ripens unevenly, making it ideal for the home orchard. July.

Early Richmond (Kentish). Medium; dark red; acid. Good cooking. Very hardy. June.

Montmorency Large. Large red cherry. Leading commercial variety. July.

CHERRIES, Sweet

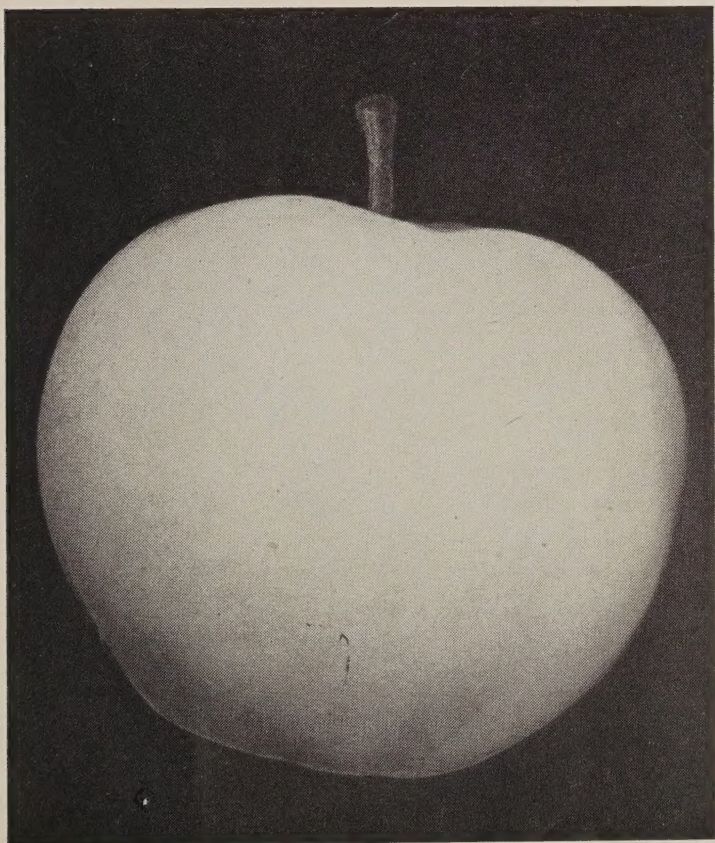

Bing. Very large; black; firm; very rich. Good shipping and canning variety. July.

Black Republican. Firm; juicy; good keeper. Pollenizer.

Lambert. Large cherry; purplish black; very good flavor; heart-shaped; good shipper. Follows Bing. Productive.

Royal Ann (Napoleon Biggareau). Pale yellow with bright red cheek; firm; juicy; sweet. Good shipper. canner and maraschino cherry.

YELLOW TRANSPARENT APPLE

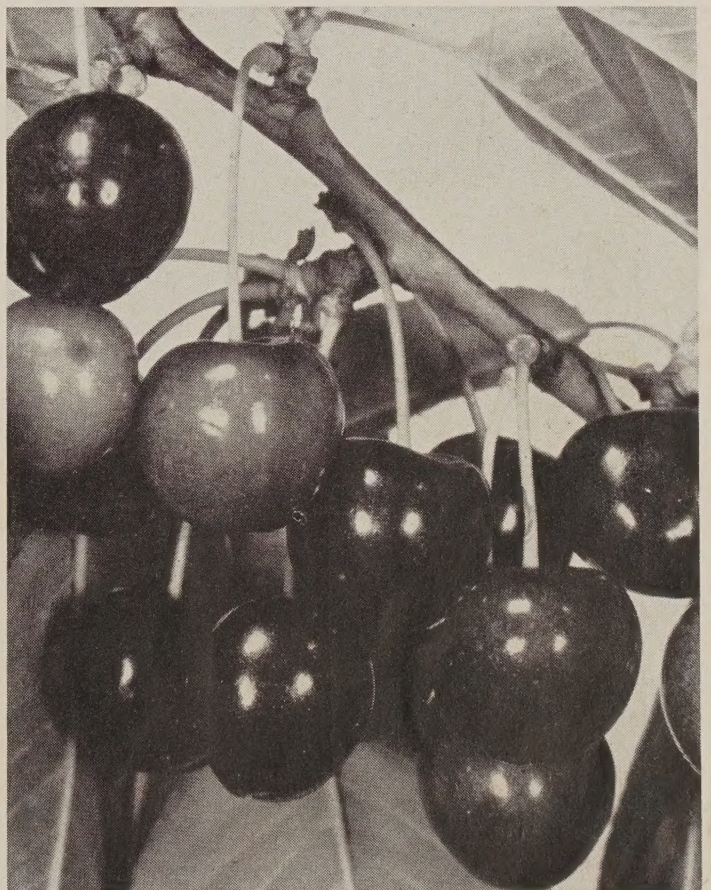

ROYAL ANN CHERRY

Great is the satisfaction in picking beautiful, ripe fruit from trees you have planted and cared for—and so much better tasting fresh from the tree.

Our Cherries are grown from state inspected virus free stocks.

BING CHERRY

PEACH TREES

We know of no other fruit tree which yields profitable returns so readily as a peach tree and it continues to do so for year after year with proper attention. Plant our healthy stock this year. Our Scion wood is all taken from VIRUS FREE and otherwise clean stock.

PRICES: 3-4' \$1.00; 2-3' 85c.

SEE COMMERCIAL PLANTER'S RATES BELOW.

Belle of Georgia. Ripens midseason. Color creamy white with red cheek. Flesh white, red near pit. Size large, freestone. Belle of Georgia, for some time, has been recognized as the best all-around white Peach on the market.

Elberta. One of the most popular and widely planted peaches. Large size freestone, bright color, yellow flesh.

Fisher (Plant Patent No. 233). Few new peach introductions have the outstanding features of the Fisher. It has two excellent qualities in its roundness and firmness; two excellent eating qualities in its smooth texture and fine "peachy" flavor. The Fisher ripens a full six weeks ahead of Elberta, a remarkable advantage for a yellow-fleshed peach of high quality. Add 20 cents royalty.

Golden Jubilee. An excellent, early canning peach; a good firm shipper. Rich yellow meat and yellow skin with a bright red cheek. Becoming very popular.

J. H. Hale. Free. Very large; globular; deep yellow overlaid red. Very solid flesh. A leading commercial variety. September.

Orange Cling. Beautiful peach; fine for canning, drying, shipping.

Rochester. Semi-cling. Earlier than Crawford; does not split at the point; the favorite for canning among those who know it. Very good flavor. Has a tendency to overbear, as a result fruit is usually only medium in size; hardy. We recommend it highly. August.

South Haven. A highly recommended peach. Very large. Ripens after Rochester and before Elberta.

Valiant. Freestone. A new Canadian variety; very hardy; Elberta type; fruit large; oblate; yellow blushed with red; good quality; firm. First of August. One commentator says: "A thousand times better than Elberta."

FISHER PEACH

ELBERTA PEACH

Vedette. Similar to Valiant but ripens a week earlier. Productive; freestone. Better than its parent—the Elberta. Very hardy.

Veteran. The fruit is large, round, yellow fleshed, usually a freestone, and far superior to Elberta in quality. Since it ripens a few days later than Valiant, it makes a desirable sort to follow that variety. Highly recommended for the Puget Sound and similar areas.

APRICOTS

Chinese. A recent introduction of great promise. Very hardy; resembles Tilton, which it surpasses for size and hardiness. Vigorous. Sometimes called Mormon cot.

Perfection. It is without doubt the finest apricot produced to date; exceedingly large, juicy, sweet. Abundant producer. **\$1.50 each.**

Tilton. Large; good color; rich flavor; frost resisting. Long the favorite in the Northwest. July.

Wenatchee Moorpark. Very large; orange with red cheeks; firm; juicy; good flavor. The most popular tree today.

QUINCE

Fine quality fruit, ideally suited for jelly and preserves. Large, well branched trees. **\$2.00 each.**

COMMERCIAL GROWERS

Put those idle acres to work growing fine quality fruit that will be in good demand in the postwar period. Invest in fruit trees now and reap multiple harvests in years to come.

Commercial Growers will find Rich's trees a good investment. The following prices apply only when 10 or more of one variety are ordered.

RICH & SONS PAY THE POSTAGE

PLANT TREES to enjoy their Delightful fruit and for the joy of growing your own.

PEARS

Bartlett. Large size; sometimes has red blush. Buttery; juicy; fine flavored. Very popular canner. We grow the good canning variety. August and September.

Beurre Bosc. Large; long necked pear; russet; half melting; juicy; delicious. One of the best autumn pears. September and October.

Beurre d'Anjou. Large; buttery; melting; vinous flavor. Commercial variety. October to January.

Doy-Comice. Large; crimson cheek; melting; perfumed; flesh; luscious. October and November.

PLUMS AND PRUNES

Burbank. Hardy; prolific; Japanese variety. Large; well colored fruit; sweet aromatic. Cling. September.

Damson, Shropshire. Small; oval; purplish-black; juicy; tart. Fine for jam. Clingstone. September.

Date. (Coates 1418). One of the sweetest prunes. Good size; reddish-purple; solid, drying out better than the Italian. A very tasty product either dried or fresh. September.

Early Italian. A most profitable Italian prune, ripening two weeks ahead of Italian. Fruit identical excepting larger. Best shipper. Offered this season at standard prices.

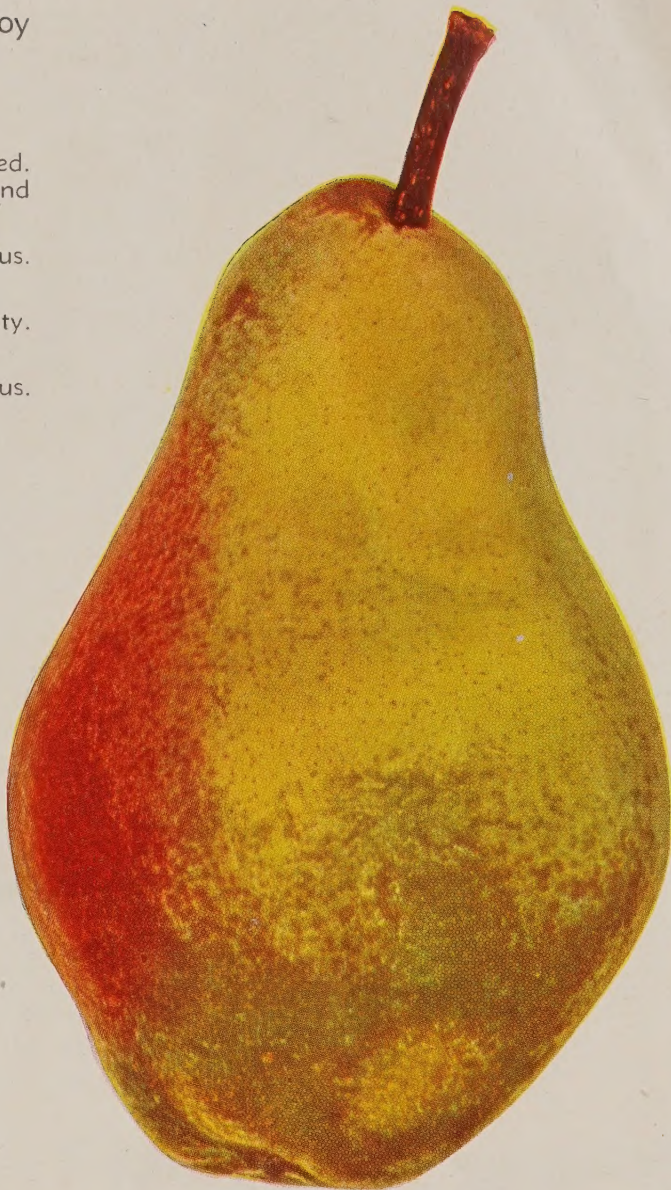

Green Gage. Small; good flavor. An old favorite. August.

Italian. This is too well known to need description. A great favorite both East and West for shipping, canning, preserving, drying. Productive. September.

Satsuma (Blood Plum). Large; skin and flesh are blood-red; pleasant flavor. Very small stone. September.

Santa Rosa. A Japanese plum of large size; exquisite flavor; beautiful dark-red color; firm; juicy; very good shipper; small pit. August.

GRAPES

Enjoy the luscious grapes that may be had from Rich & Sons' fine large grape vines.

EUROPEAN TYPE GRAPES 50c each, 10 for \$4.00.

Flame Tokay. Crisp red grapes; mid-season. Heavy round juicy berries.

Malaga. Leading white mid-season shipper. Large round juicy berries.

Red Malaga. Excellent red grape ripening before Tokay. Splendid for arbors.

Muscat. Leading table grape. Mid-season. Strong canes, easily trimmed.

Thompson Seedless. Best known table and raisin grape. White; early. Luscious long clusters.

GRAPES, American, 50c each, 10 for \$4.00.

Agawam. Large compact bunches of beautiful red berries. Very productive and the best of its class.

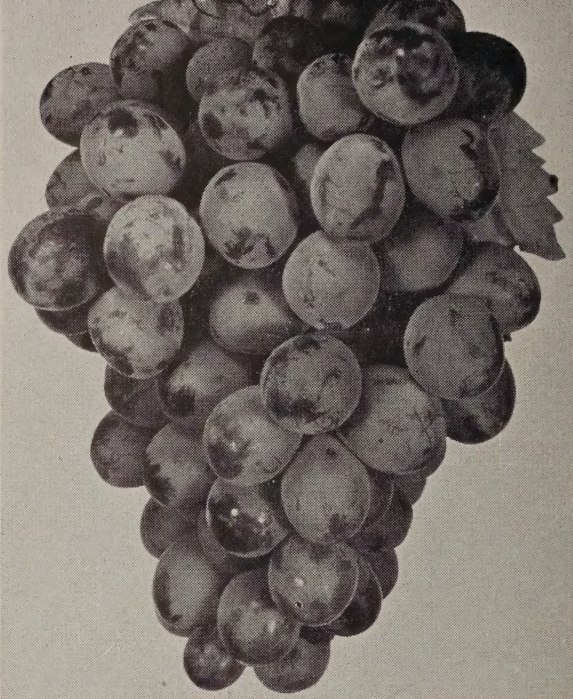

Delaware. Small compact red bunches of delicious berries. For desserts and eating. Extra sweet.

Campbell's Early. Black. Very large berries and large clusters; very rich flavor; thin skinned; small seeds; good for juice. The berries do not spoil readily on the vines after ripening. An excellent commercial variety.

Concord. Big bunches of large sweet berries; deep blue. Unexcelled for juice and general purpose.

Moore's Early. A good blue-black grape of superior quality; the earliest good American grape; rich; thick fleshed. Rather light bearer, but valuable commercial variety.

Niagara (White Concord). The Concord of the white grapes. Very large bunches of large berries; finest quality. Good market variety.

NEW GRAPES, 75c each, 10 for \$6.50.

Caco. Early to bear; large compact bunches of delicious red grapes of the best quality. The highest honors were awarded this grape by the New York Horticulturists.

Fredonia. Best of the new early grapes. Two weeks ahead of Concord. Fine clusters of extra large blue fruits that are plump and juicy. Recommended by experiment stations, eminent horticulturists and commercial growers.

Ontario. This is an outstanding new white grape, producing immense quantities of large sweet grapes ripening considerably ahead of other white grapes.

Portland. Holds first place for all early white grapes. The bunches and berries are the largest of all the early white grapes. Highly recommended.

Sheridan. This is an outstanding new black grape, early and of excellent quality; fine to follow Fredonia.

Urbana. The vines are vigorous, healthy, and productive, and very attractive. The berries are light red with skins which cling to the pulp. The flesh is firm but tender, juicy, aromatic, and has a rich, sweet, vinous, spicy, refreshing flavor. The grapes keep in common storage until March without shriveling, shelling, or decaying.

EXTREMELY CHOICE AND RARE INTRODUCTIONS \$1.00 each, 10 for 90c.

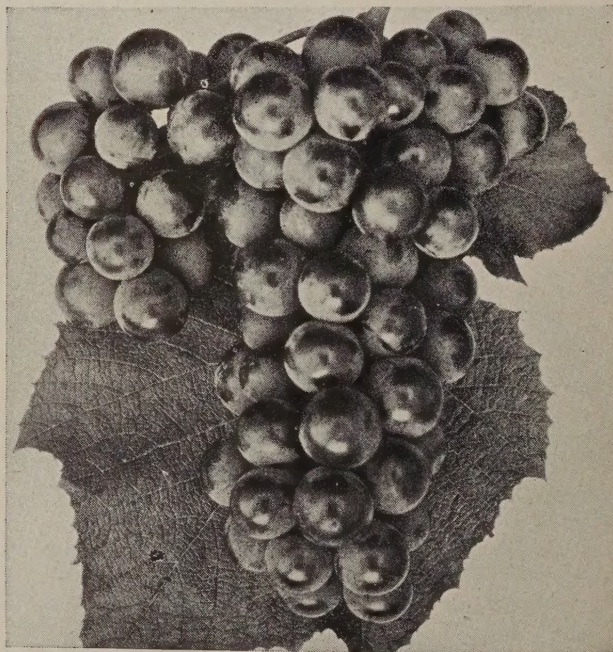

Golden Muscat. A new hardy California Grape. Government plant scientists have crossed the largest California grapes with our native varieties. Golden Muscat is the best of the new hybrids. This perfectly hardy variety has large bunches of delicious golden fruits which have only a few seeds. A new and different grape for the Middle West which we recommend highly.

Seneca. The bunches are of medium size, tapering, compact; berries oval and yellow. Sweet, vinous, and aromatic. The skin can be eaten with the berry. The vine is vigorous, healthy, productive, and hardy.

OREGON CHAMPION GOOSEBERRIES

RED LAKE CURRANTS

EVERBEARING STRAWBERRIES

Per 25, \$1.50; per 100, \$4.00.

Mastodon. Prolific, with glossy red, juicy, well flavored berries; large. Valuable for market.

New Gem. This is the outstanding commercial ever-bearing strawberry for Western growers.

ROCKHILL STRAWBERRIES

25 for \$3.00, 100 for \$10.00.

This strawberry bears six months of the year, is the sweetest of strawberries and bears even in the hottest weather. It has gained in popularity tremendously for backyard plantings and for barrel planting. It is runnerless and produces an abundant crop the first year. Keep well watered.

STRAWBERRIES

Per 25, \$1.25; 100, \$3.00.

Dorsett. New. An early red variety; firm and productive; very high quality; a wonderful market berry.

Improved Oregon. A favorite in the Northwest, producing enormous berries of high quality, delicious, sweet.

Marshall. The west's outstanding home garden and market berry. Produces an abundance of very sweet fruit.

Narcissus. We are very fond of this early berry. Sweet, mild and very productive.

Red Heart. It is firm; bright red to the core; does not shrink when canned or preserved.

RED LAKE CURRANTS

This marvelous new currant has the size, color, and quality of Perfection but is unique in its large, long stemmed clusters which increase picking speed 50%. Berries are resistant to sunburning. The bush is a strong upright grower, a heavy producer. **50c each, \$4.00 for 10.**

Perfection. The queen among currants. Bright red; large full bunches; productive. Rich flavored; easily picked. **35c each, 10 for \$3.00.**

GOOSEBERRIES 35c each, 10 for \$3.00.

Oregon Champion. Large; light green; very sweet; fine flavored. Productive and free from mildew. The best.

WRITE FOR COMMERCIAL PLANTING RATE

BRIGHTMORE

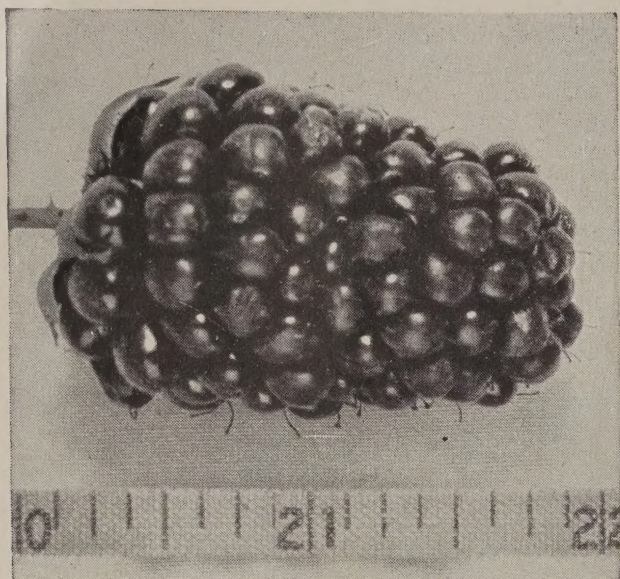

A brand new variety introduced at Oregon State College. Excellent market berry, fine for freezing or preserving. Resistant to Yellows disease. We have record of one plot producing 8 tons of marketable berries per acre.

25 for \$1.75

100 for \$5.00

EVERY CUSTOMER MUST BE PLEASED

BOYSENBERRY

THORNLESS BERRIES

Why tear your clothing and scratch your hands and arms when you can pick these luscious berries in comfort?

35c each, 10 for \$3.00.

Boysenberry (Thornless). Like the older Boysenberry in quality and production of large luscious berries but without thorns.

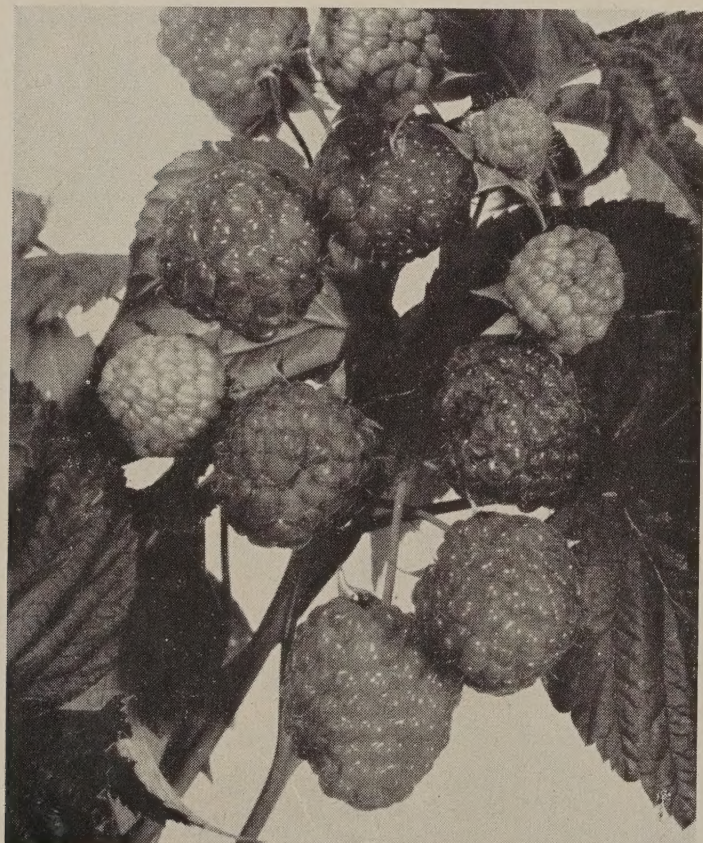

Loganberry (Thornless). (Pat. 82.) Vigorous vines with heavy crops of dark red delicate berries. One of the best for making juices or for drying.

Youngberry (Thornless). Fine flavored deep purple berries. Almost seedless and of fine flavor. Vines vigorous and very productive.

NECTARBERRY

A new berry similar in appearance to Boysenberry, darker in color, but sweeter and less acid. Really a superior berry. Grows like Boysenberry. Vigorous and productive. Not thornless. **35c each, 10 for \$3.00.**

LATHAM RASPBERRY

SMALL FRUITS ARE PROFITABLE

either planted in the garden for family use or in the field for commercial production. The demand is excellent.

BERRIES

25c each, 10 for \$2.00.

Boysenberries. Large, dark red, excellent canning and shipping.

Loganberry. Long red berry. Acid. Valuable all-purpose berry.

Youngberry. Heavy bearing vines; large luscious berries.

Lucretia Dewberry. Very large, early, soft and luscious.

Mammoth Blackberry. A long black berry of mild sweet flavor.

RASPBERRIES

20c each, 10 for \$1.75.

Cuthbert. The most widely grown berry on the Pacific Coast. Prolific and delicious.

Latham. We regard this as one of the very best raspberries on the market. Huge berries, round in shape, delicious; stalks vigorous and produce over a long period of time.

New Washington. This fine new Cuthbert type raspberry should be in every garden or commercial field. It is larger than Cuthbert, bright red and finest quality. Most disease resistant and is replacing other varieties in many sections.

Sunrise. A very early variety of excellent quality. A good berry to start the season.

EVERBEARING

Indian Summer is by far the best everbearing Raspberry yet introduced. Of very excellent quality and continuous bearing.

BLACKCAP RASPBERRIES

Cumberland is the finest blackcap on the market. Under favorable conditions produces enormous purplish black berries of excellent flavor.

Morrison (New). Most promising of all Black Raspberries. Ripens a few days after Cumberland.

Sodus Purple Cap. A new purple cap originated by the New York Experiment Station. It is extremely vigorous, hardy and drought resistant. In our experimental plots Sodus has surpassed all others in growth of cane and in production. The berries are large, firm, medium purple in color, sprightly and good in quality. It ripens shortly after Latham. Sodus is an exceptionally heavy producer and is proving out to be the most dependable and profitable of all purple caps.

RHUBARB

20c ea.; 10, \$1.75.

Strawberry. Valuable for its attractive color when cooked. Especially adapted for home use.

ASPARAGUS ROOTS

**2 yr., 10 for 60c,
25 for \$1.00.**

Washington. Large stalks; heavy yield; tender.

HORSERADISH

20c ea.; 10, \$1.75.

RHUBARB

MARY WASHINGTON ASPARAGUS

BROWN TURKEY FIG

FIGS

3-4' \$1.50 each.

Brown Turkey. One of the hardiest sorts. Very prolific; very large, fine grained strawberry red.

White Fig. Sweet and juicy; very productive. Just the thing for fig preserves. Fig trees bear when very young.

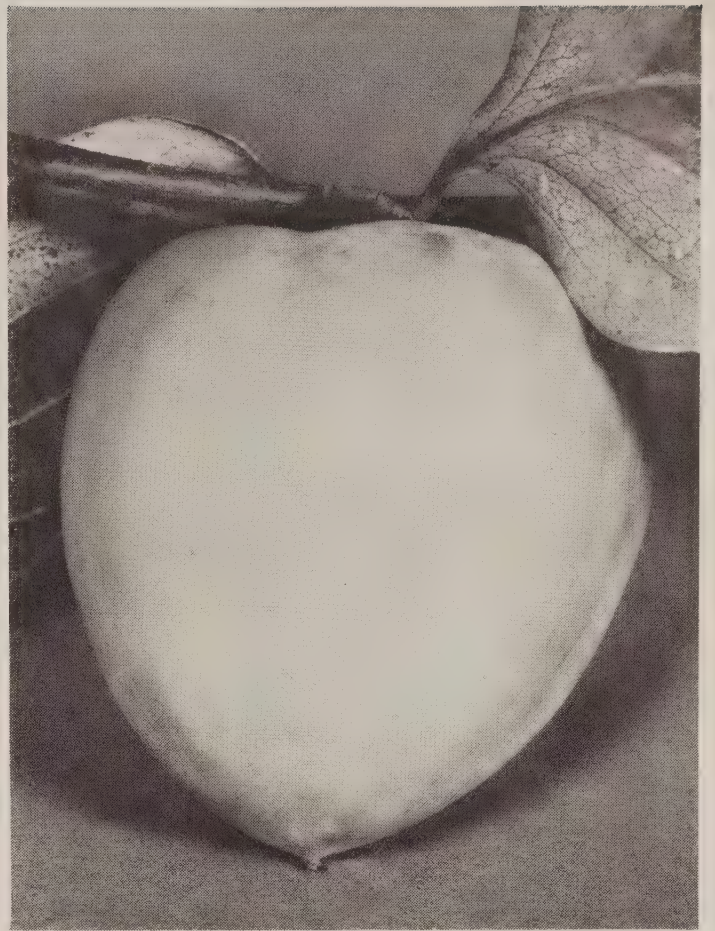

PECANS, 4-6' \$4.00, 3-4' \$3.50.

These are the large, soft-shelled varieties.

MEYER LEMON

We offer this attractive fruit for porch and house culture only. Some of you who like to experiment with new plants will want to try it in a favored outdoor location, though we make no guarantee of results. The fruit is extremely large and true lemon, borne on a very beautiful evergreen shrub. Fruit matures late during the winter months when good lemons are scarce. The plant is very dwarf, suited to pot or tub culture. Bears when very young. Add this practical novelty to your collection. Plants offered are in one gallon cans. The hardiest lemon known.

Priced \$2.00 each.

HACHIYA PERSIMMON

PERSIMMON HACHIYA

Beautiful conical fruits of the highest quality, borne on attractive trees. 3-4' \$2.50 each.

MEYER LEMON

LOVELY ROSES for 1945

SANTA ANITA (Plant Pat. 539) \$1.25 EACH

Santa Anita. (Plant Patent 539). Large long pointed buds opening to very double high-centered blooms of soft silvery pink. Light green foliage, vigorous upright growth. \$1.25.

FRED EDMUNDS (Plant Pat. App. for) \$2.00 EACH

HEART'S DESIRE (Plant Pat. No. 501)
\$1.50 EACH

Heart's Desire (Patent 501). All America Winner in 1942. Long pointed buds of bright red are exquisite and open to gorgeous red blooms. Extremely fragrant. Keeps well when cut. \$1.50.

Apricot Queen. Plant Pat. No. 464. A lovely combination of orange and apricot at the base of the petals, merging to salmon-rose. Long pointed buds, with regular well placed petal arrangement in the open flower. Handsome leathery foliage. \$1.25 each.

Grand Duchesse Charlotte. (Pat. rights reserved.) Buds a rich claret red changing as the flower opens to a lovely begonia rose. Richly fragrant and unusual in color. \$1.50.

Lowell Thomas. (Pat. applied for.) Very double high centered flowers of a lasting canary yellow. Large, long-pointed buds. Vigorous compact bush of upright habit and leathery foliage. \$2.00.

Fred Edmunds (Plant Patent applied for). Beautiful buds of burnt-orange open to lasting blooms of reddish apricot aging to orange-pink. Sturdy, glossy foliage. All-America winner in 1944. \$2.00.

It is with pride that we offer the new rose, Fred Edmunds, to our many friends in the Northwest. We are particularly pleased that this fine, unusually beautifully colored rose has been selected to honor Mr. Fred Edmunds of Portland's International Rose Testing Gardens. A tribute to his excellent work in rose culture.

FLORADORA . . . \$1.25 EACH

Floradora. Floribunda. Quantities of vivid, geranium-red 25-petaled blooms are freely produced all season on erect, symmetrical plants furnished with large, wavy, glossy foliage. **\$1.50.** (Pat. Pending.)

CLIMBING CHRISTOPHER STONE . . . \$1.50 EACH

MME. KAING KAI-SHEK . . . \$2.00 EACH

Mme. Chiang Kai-Shek. (Pat. applied for.) Buds large, long-pointed opening to long-lasting very large flowers of Empire yellow fading to lemon yellow as the flower matures. Excellent leathery, glossy dark green foliage covers this vigorous bush. **\$2.00.**

Clg. Christopher Stone. Beautiful new red climbing rose. **\$1.50.** (Pat. Pending.)

Pasadena Tournament. (Patent 578) One of the most outstanding roses of recent years. Our own introduction and praised highly by many of our customers. The tiny Cecil Brunner buds are deep red, useful for corsages, and open to good sized deep red flowers of fine form. Everblooming and thornless, you need never be without these exquisite buds. The cut buds are pleasingly fragrant. **\$1.50.**

PASADENA TOURNAMENT . . . \$1.50 EACH

MIRANDY
Copyright Armstrong Nursery

Mary Margaret McBride Patent 537). Lovely, long, flaring buds and many petalled flowers of delicate coral-pink with a shimmering golden at base. Sometimes shy-blooming, but every flower is perfect. **\$1.50.**

MARY MARGARET McBRIDE (Pat. No. 537)

Ednah Thomas. Large, brilliant, double cutting rose. Salmon-rose bloom of fine form with considerable orange in its color. Perfumed. Good stems. Strong, climbing growth and a continuous bloomer, with fair foliage well held in long season. **\$1.00 each.**

Horace McFarland. A magnificent rose with long-shaped light, coral-red buds that open to luscious full-petaled flowers of salmon-buff. Fruity fragrance. **\$2.00.** (Pat. Pending.)

HORACE MCFARLAND

Anzac. Has all the qualifications of a winner—vigor, ruggedness and dependability. As these flowers expand, the original colors lighten, the golden flush at the base of the petals passes to yellow and the coral changes to rosy lake. The merging of these colors might well be compared with the "rose" in the sky at dawn, just before the sun climbs over the eastern horizon. **\$1.50 each.**

Commando. This expendable rose, except for the dormant period, is always in action early, mid-season and late. The strong bushes, well clothed with clean, deep green foliage, portray the fact prior to the blooming period that Commando will not fail in its final objective, namely, quantities of long-stemmed, radiant roses. The color is beyond the pale of description. Coral, salmon, rose and liquid gold flood the fifty jewel petaled buds and no-fading open flowers with a surge and wash of color that at times shows above the edge of the early morning horizon. Your vision and hope for beautiful roses will be fulfilled by placing your confidence and reliance in the fine character of our lovely new and expendable Rose "Commando". **\$1.75 each.**

Gloaming (Plant Pat. 137). Fawn-orange. A novel colored rose that is particularly lovely in the half-opened bud stage when the color is fawn-orange. The open blooms are an unusual shade of pink, overlaid with salmon. **\$1.25 each.**

Mirandy (Plant Pat. 632). The first place winner in the 2-year All-America Rose Competition for 1945. The huge, 50-petaled, deep crimson flowers open slowly from exquisitely modeled, ovoid buds, often long-pointed, and are filled with rich, penetrating damask fragrance. Mirandy has a splendid plant habit, the bush growing erect and symmetrical. It is clothed to the base with broad, olive-green, heavy-textured foliage. Mirandy blooms continuously from early June until hard frost. **\$2.50 each.**

DWARF POLYANTHA ROSES, \$1.00 each, 10 for \$9.00.

Edith Cavell. Brilliant, scarlet, overlaid velvety crimson.

Gloria Mundi. Large, fully double, lasting, orange-scarlet, borne in clusters.

Golden Salmon Superior. Bright orange-salmon. Fine for mass planting, blooms continually.

CALIFORNIA . . . \$1.50 EACH
(Plant Patent 449)

California. (Patent 449.) One of the finest roses for southern California. In the fall sunshine and rich soil of California this rose is aptly named. Enormous flowers of ruddy orange toned with saffron-yellow. **\$1.50.**

Shangri-La. The long pointed buds of Shangri-La are perfect, and upon opening show a rare combination of tints and shades; blush, salmon and rose delicately blended, yet clear and sparkling like dawn itself. The bushes are vigorous, with ample dark, rich green foliage, as well as fine stems for cutting. It is our firm belief that the color and freshness of Shangri-La will brighten your rose horizon for many a year. **\$1.50.**

Angels Mateau (P. Dot, 1934) (Plant Patent 174). **\$1.00 each, 3 for \$2.50.** This is one of the most appealingly lovely of all the roses produced by the great Spanish rose Hybridizer, Pedro Dot. Orange-rose—almost the color of coral from the South seas. The blooms are large and have a delicious fragrance like ripe raspberries.

Mary Hart (Geo. Hart, 1931) (Plant Patent 8). **\$1.00 each.** A striking red sport of Talisman. The bud is maroon-red, opening to well-formed blossoms of deep velvety blood-red with an overflow of amber. Mary Hart does not wilt or dry out when cut but opens perfectly.

MARY HART . . . \$1.00 EACH

© 1932

PLANT PATENT
NO. 8

DOUGLAS MacARTHUR . . . \$1.50 EACH

Douglas MacArthur (Pat. 581). Large, long-pointed buds opening to full high centered and long lasting flowers. Delft rose slightly bronze at the base of petals. Vigorous upright bush continuously producing long-stemmed flowers. **\$1.50.**

Texas Centennial. (Plant Patent 162.) Blood-red, A sport of the rose President Hoover with the same type of growth and exquisite flower. Different only in color which is blood-red, toning to cerise-red in center. **\$1.00 each.**

Flash. (Plant Pat. No. 396.) A luminous orange-scarlet with the backs of the petals yellow, suffused with scarlet; center gleaming yellow and filled with golden anthers. Buds yellow, with scarlet suffusion. AARS winners. **\$1.00 each.**

CLIMBING FLASH

SISTER THERESE

WHITE HYBRID TEAS

Frau Karl Druschki. The most popular everblooming white rose. Outer petals of immense buds occasionally tinged with pink; open blooms pure snow-white, large and moderately full.

K. A. Victoria. Pearly white, tinted with lemon in center.

SOUTHPORT

E. G. HILL

EDITH NELLIE PERKINS

YELLOW HYBRID TEAS

Joanna Hill. The exquisitely formed long buds are orange-yellow, exceptionally fragrant. The open blooms are somewhat lighter. The texture of the petals is not injured by the weather.

Mrs. E. P. Thom. Clear canary yellow.

Sister Therese. Buds are long, dark golden yellow and remarkably beautiful. Sweetbriar fragrance.

RED HYBRID TEAS

Christopher Stone (H. Robinson, 1935). Large semi-double vivid scarlet flowers overlaid with velvety crimson. It is unsurpassed for intense damask fragrance. Of vigorous, upright growth with bright green foliage.

E. G. Hill. This is the most unfading of all red roses. Immense, double flowers of dazzling scarlet shading to a deeper red as they develop; are deliciously fragrant and long lasting when cut. Blooms are produced singly on long vigorous stems.

Etoile de Hollande. The finest dark red rose for general purposes. Ranked among the first three of its color by everyone who knows roses. The beautiful, oval buds are perfect, of medium size, and open into magnificent brilliant red bloom.

Southport. Flower full, cupped, very lasting, fragrant, a very brilliant, unfading scarlet.

PINK HYBRID TEAS

Edith Nellie Perkins. An outstanding, vigorous, and free flowering rose. Long, pointed buds of good size. Long lasting; double, fragrant flowers. Oriental red, shaded cerise-orange; inside salmon-pink.

Imperial Potentate. Clear rose pink. Exceptionally formed, highly fragrant buds, lasting extremely well. One of the most popular pink roses.

MRS. E. P. THOM

ETOILE DE HOLLANDE

K. A. VICTORIA

ALL 2 YEAR, NO. 1 ROSES LISTED ON PAGES 14 & 15
\$1.00 Each, 10 for \$9.00.

ORANGE and TRI-COLOR HYBRID TEAS

Angele Pernet. Buds deep, flaming orange to semi-double blooms of brilliant reddish apricot.

Autumn. A distinct color of intense richness. This rose incorporates shades of burnt orange suffused with russet-brown and bronzy red all overlaid on a background of rich yellow. A color combination reminiscent of the most glorious autumnal foliage.

Mme. Edouard Herriott. The original of all the bright orange-pink varieties.

Mrs. Sam McGredy. Large, long pointed buds are produced singly on strong, slender stems. The color is a glowing combination of red, copper and orange, changing to warm pink suffused with gold as the flower ages. Vigorous, healthy plant.

Pres. H. Hoover. A wonderful multi-colored rose, charmingly combining many shades of cerise-pink, flame, scarlet and yellow. The buds, borne upright on strong stems, are long and pointed, and possessing a most exquisite fragrance.

Talisman. A vividly colored rose of an unusual combination of gold, apricot, pink and carmine in mingled splashes, streaks and blends. Flowers fairly double, borne on long stems.

CLIMBING ROSES

Gardenia. Yellow buds and creamy flowers with rich yellow.

Jacotte. Deep orange-yellow, tinted coppery-red.

Silver Moon. Large buds, creamy white flowers semi-double, golden anthers, small sprays.

CHRISTOPHER STONE

COPYRIGHT THE
CONARD-PYLE CO.

PRESIDENT HOOVER

CLIMBING ROSES, Continued

Dr. Van Fleet. Pale pink buds and flowers on long stems.

Cl. E. P. Thom. Clear canary yellow.

Paul's Scarlet. The semi-double flowers are of good size and of a vivid scarlet-red color, fading but little. Freely produced in clusters on much branched canes. It is perfectly hardy.

Reveil Dijonnais. LC. For sheer brilliancy of coloring this is probably one of the most outstanding climbers ever introduced. Large, semi-double flowers of light yellow with a deep zone of cerise-pink around the edges, creating the effect of a deep pink rose with a great yellow center.

Talisman. HT. Flowers are the same wonderful color and lovely form as the bush variety.

TALISMAN

CLEMATIS, MME. EDOUARD ANDRE

VINES

Silverlace Vine. This very popular summer blooming vine grows very rapidly and blooms very freely. **75c each.**

Honeysuckle (Hall's Japan). Fragrant white blossoms, almost evergreen. A good ground cover. **75c each.**

Goldflame Honeysuckle. The large flame-coral trumpets lined with gold, fragrant after night-fall, appear in immense, showy clusters the same year planted. Reaching its full glory of bloom in early summer, it nevertheless flowers abundantly from May until frost. **75c each.**

ALL 75c VINES SOLD 3 FOR \$2.00.

Bittersweet. A hardy ornamental vine with large orange yellow flowers and crimson berries that stay on through the winter. **75c each.**

Ivy. English Ivy. The popular evergreen vine. **35c each.**

Boston Ivy. Popular for its fall coloring. Clings to any surface. **75c each.**

Engelmanni. Rapid grower, heavy foliage, five-leaf type; clings to brick. **75c each.**

Wisteria Longissima (New). Loose, graceful, exceptionally long racemes of purple or pink or white. **\$1.25 each.**

GOLDFLAME HONEYSUCKLE

TRUMPET VINE

WISTERIA

ON GROWING CLEMATIS

Soil: A rich well-drained loam, loosened by the addition of sand or peat moss, is best. Make certain that the collar of the plant is set 2 to 3 inches below the surface of the soil. Water frequently in dry weather.

Location: A partially shaded location is ideal. If planted in full sun, shade the stems.

Fertilizing: Well-rotted manure is preferred. Use a little lime occasionally.

We are offering some unusually fine new clematis this season. These are different both in color and form from the ordinary types. All large flowered, all plants offered are large 2-year plants that will bloom the first year with proper attention.

CLEMATIS

	Date of Bloom	Each
Duchess of A'bany. Bright, pink, trumpet-shaped flower. . . .	July, Oct.	\$1.50
Duchess of Ed'nbu'rg. A superb double pure white flowering form	June, July	1.00
Mr. G. J. Patijn. Unusually delicate is this light blue double-flowering form	June, July	2.50
Jackmani. Perhaps the most familiar of all the Clematic hybrids, this old favorite is noted for its great vigor and its abundant violet-purple bloom.	June, Oct.	1.00
Mme. Baron-Veillard. The latest to flower of these hybrids is this lilac-rose form.	July, Oct.	1.00
Mme. Edouard Andre. Bright velvety red in color.	June, Oct.	1.00
The President. Of decidedly rich coloring is this reddish-plum-violet variety.	June, Oct.	1.25
Crimson King. Large bright red flowers.	June, Oct.	1.50
Elsa Spath. Bright blue form which becomes deeper in color toward the center of the flower.	June, Oct.	1.25
Henryi. A familiar variety with unusually large white flowers	June, Oct.	1.00
Lanuginosa candida. A pure white flower with a white center	June, Oct.	1.25
Lawsoniana. An unusually large bright blue flower. Always a colorful favorite.	June, Oct.	1.25
Nelly Moser. Mauve with red bars, large.	June, Oct.	1.25
Prins Hendrik. Orchid-blue with ruffled petals, the blooms are rich in texture.	June, Sept.	1.50
Ramona. Large lavender-blue flowers.	June, Oct.	1.00
Ville de Paris. Dark blue flowers with brighter bars.	June, Sept.	1.00
Ascotiensis. Azure-blue	July, Oct.	1.25
Kermesina. A velvety textured rich red flower of medium size	July, Oct.	1.00
Ville de Lyon. Carmine-red.	June, Oct.	1.00
Montana undulata. Soft mauve-pink.	May, June	.85

FRANQUET WALNUTS

NUT TREES

FILBERTS—Heavy Transplanted Trees

We have a very large stock of well rooted transplanted filberts to offer. Rich & Sons trees will pay you big profits. See us before placing your order.

4-6 feet\$2.00 each

3-4 feet 1.50 each

Barcelona. The champion filbert of the market. Round; golden brown color; full kerneled; rich flavor.

DuChilly. Large oblong nut; soft shell; clean light brown. Pollinizer for Barcelona. Slow grower.

Daviana. DuChilly type; softer shell; golden brown color; rather light bearer; good pollinizer for all varieties.

Each year we supply thousands of "tip layer" trees for planting commercial orchards. We have taken care to select the very best strains for commercial production.

We list only small quantities, but will be glad to quote on larger quantities. Please advise the quantities needed.

	Each	10-49	50-299
4-6'	\$1.25	\$1.00	.90
3-4'	1.00	.85	.80
2-3'	.85	.75	.70

WRITE FOR PRICES ON LARGER QUANTITIES.

These prices include tree protectors and free 1-year replacement guarantee, providing proper care has been given. This does not include mechanical injury or sunburn and applies only when protectors are properly applied.

FILBERT ORCHARD

CALIFORNIA BLACK WALNUTS

	Each
4-6 feet	\$1.50
6-8 feet	2.00

A hard, spherical nut; smooth; the kernel is rich and oily. A rapid growing tree.

FRANQUET WALNUTS

Franquette Grafted. This is the variety that is making the walnut industry of the Pacific Northwest. It is large and uniform in size; rather long, allowing a larger kernel than the shorter types. Shells easily but is not soft shelled. The shell does not split readily, assuring the full flavor and crispness of the kernel. This is a beautiful shade and street tree. Profitable as well as ornamental. An asset to any property. Very prolific.

	Each
3-4 feet	\$2.50
4-6 feet	3.00
6-8 feet	3.50

TREE PROTECTORS

We particularly recommend the use of tree protectors on young filbert and walnut plantings and will not be responsible for losses incurred when they are not used. An excellent guard against sunburn, scraped bark and rodents.

BARCELONA FILBERTS

TO OUR CUSTOMERS

GUARANTEE

Rich & Sons guarantee their stock to please you. We guarantee it to arrive at the purchaser's nearest shipping point in perfect growing condition, free from diseases and absolutely true to name.

We never substitute on commercial varieties, but do feel at liberty to substitute on small orders unless requested not to, in each case, however, we put the true name of the plant on the label. Furthermore, any such substitutions may be exchanged if not satisfactory. All claims for shortage or any other reason must be reported within ten days.

DELIVERY DATES

While we like and aim where possible to make shipments to arrive on designated days, we cannot give any assurance that they will. Due to the labor shortage we must fill orders as we can. We hope our customers are aware that shipments must be inspected by your horticultural inspector upon arrival which frequently causes some delay.

Suitable Distance for Planting

	No. Feet Each Way		No. Feet Each Way
Apples	25 to 35	English Walnuts	40 to 60
Pears	20 to 25	Filberts	20 to 25
Cherry, Sweet	25 to 35	Currants	3 to 7
Cherry, Sour	20 to 25	Gooseberries	4 x 8
Plums	20 to 25	Raspberries	3 x 8
Prunes	20 to 25	Blackberries	5 x 8
Peaches	20 to 25	Strawberries:	
Apricots	20 to 25	Field	2 x 3
Nectarines	18 to 20	Garden	1 x 2
Quince	15 to 18	Grapes	8 x 10 ft.
Almonds	20 to 28	Asparagus	8 in. x 3 ft.

BLUEBERRIES

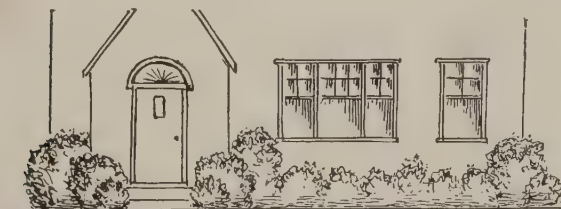

An acid soil, rich in leaf mold and with an abundance of moisture throughout the growing season, is best for success in blueberry culture. Peat bogs, alder bottoms, willow and cedared swamps, when cleared, make ideal locations for blueberries, as do upland soils containing a large amount of leaf mold and naturally or artificially well supplied with moisture. In a commercial planting the rows and plants should be spaced far enough apart to permit two way cultivation; a spacing of eight feet by four seems quite suitable. For home gardens a spacing of five feet by three feet is generally sufficient. It is advisable to plant two or more varieties, as the pollenating of the blueberry is done by insects, mainly bumblebees.

While blueberries do well in partially shady locations, full sun is preferable, as the fruit ripens earlier, more evenly and the sugar content of the berries is higher.

CLOSED SUNDAYS

We are working very long hours during the week to fill your orders, therefore feel we should have one day free and know you will cooperate with us by not coming on Sundays. We'll try so much harder to get your order out on Monday.

REPLACEMENTS

Our policy in the future shall be to take full responsibility for plants which arrive in a damaged or dried out condition if reported to us at once. In the case of damaged goods do not sign the express or freight receipt unless the agent makes note of the damages as a basis for adjustment. Any stock reported to us as not living by JUNE 15th will be replaced at one-half the purchase price, provided adequate proof is given. Claims made after that date cannot be considered.

How to Plant a Tree

SET TREE IN TUB OF WATER WHILE DIGGING HOLE.

IMPORTANT: WE DO NOT ENCOURAGE THE USE OF MANURE. IF WELL DECAYED AND MIXED WITH SOIL IT SHOULD BE USED ONLY ON THE TOP.

DOING OUR PART ON THE FARM

Doing our part aside from extensive nursery plantings, we farm over 200 acres of rich Tualatin Valley land.

Crops produced are wheat, oats, barley, Austrian peas, Willamette vetch, hay and fruit and nut crops.

CEDRUS DEODARA

RETINOSPORA

CYPRESS

EVERGREENS

RETINOSPORA

Heath (*R. ericoides*). Hardy dwarf shrub with soft bronze foliage.

CYPRESS

Blue Cypress (*Alumi*). Rich blue foliage; upright symmetrical growth.

Golden Cypress (*Stewarti*). Golden tipped variety.

CEDAR DEODAR

One of the most graceful evergreens, growing very tall with silvery foliage on drooping branches.

CRYPTOMARIA

Plume. Bronze-green foliage turned to almost red in fall; very plume-like.

JUNIPERS

Irish Juniper (*Fastigiata*). Bluish green foliage; erect, compact, slender. Excellent accent shrub.

Pfitzer's Juniper (*J. chinensis pfitzeriana*). Spreading type. Ideal for banks; very drought resistant; olive-green foliage.

Savin's (*J. sabina*). Prostrate type; hardy. Excellent for terraces. Deep green foliage.

Savin's tamarix (*J. sabina tamariscifolia*). One of the best trailing junipers. Particularly fine foliage. Adapted to terraces, rockeries, etc.

EVERGREEN SHRUBS

ARBORVITAE (*Thuja*)

Berckmans (*T. occ. aurcanana*). Compact growth, gold tipped foliage turning to light green when mature. Dwarf.

Dwarf Tom Thumb (*T. nana nana*). A very dwarf, slow growing spreading arborvitae of unusual interest and beauty. Compact growing and pleasing in form and texture.

Pyramidal (*T. occ. pyramidalis*). Tall, columnar growth. Compact. Well known.

PYRACANTHA LALANDII (FIRETHORN) AND MISCELLANEOUS SHRUBS

MUGHO PINE (*Pinus Mugho*)

A dense, compact dwarf evergreen with rather long dark green needles, valuable for Rockeries and foundation plantings.

SPRUCE (*Picea*)

Colorado Blue (*P. Pungens glauca*). An elegant tree with rich blue foliage. Erect and stately.

Norway Spruce (*P. excelsa*). Dark green foliage. A rapid grower forming a lotty, well-shaped tree. Excellent for windbreaks and hedges. Stands shearing well. "The Christmas tree spruce."

YEW (*Taxus*)

English (*T. baccata*). Large dense green foliage. Lends itself to shaping. Red berries in fall.

Golden Irish Yew (*T. b. fast var*). A golden variegated variety of Irish Yew.

T. Cuspidata. A hardy upright growing green yew. Somewhat spreading in habit. Can be sheared to slender growth or left to grow in broad form.

ABELIA GRANDIFLORA

Glossy foliage. Pink trumpet shaped blossoms borne continuously till frost.

ANDROMEDA (Pieris japonica)

A charming evergreen shrub with clusters of creamy white flowers in early spring.

AUCUBA

Goldust. Large green leaves speckled with gold. Valuable for shady places. Large bright red berries.

Greenleaf. Glossy green leaves. Large bright red berries if planted with a pollinizer. Likes shade.

AZALEA, HINODEGIRI

LAURESTINUS

BARBERRY

Darwin. Glossy, holly-shaped leaf; attractive yellow blossom followed by purple berries.

Dwarf (*dulcis nana*). Very dwarf; dark green foliage.

BOXWOOD

Truedwarf. A very dwarf boxwood used for specimens, very low hedges or window boxes.

Truetree. Evergreen shrub, suitable for specimen planting. Used for shaping into cones, pyramids or globes. Ideal for medium height hedge. Special prices for hedging.

COTONEASTER

Franchetti. Graceful pendulous branches. Orange red berries.

Horizontalis. Spreading type. Covered with bright red berries in fall and winter. Foliage turns to attractive colors in fall.

AZALEA (*Hinodegiri*)

Very dwarf early blooming, brilliant crimson.

LAURESTINUS

A dense growing shrub; sets many clusters of buds in fall which open into white flowers in early winter.

HEATHER (*Erica*), \$1.50. each

Irish Belle. Attractive purple blossoms in July and August.

Mediterranean. Dwarf; tall and winter blooming; pink.

Red Heather.

Springwoods White. The best white flowering heather. We know you will like it.

LAUREL

English. We have the dark green strain which remains attractive the year 'round. Good specimen or screen plants. See hedge plants.

SKIMMIA

Low, compact plant; glossy dark green leaves; large red berries on female plants during winter. Needs male plant for pollinizer.

RHODODENDRON PINK PEARL

RHODODENDRON PINK PEARL, \$5.00 each.

This is doubtless the most popular light pink Rhododendron on the market.

Alice. Deep pink. Regular and profuse bloomer.

Michael Waterer. Scarlet crimson. The ever-popular red rhododendron.

White Pearl. White form of pink Pearl.

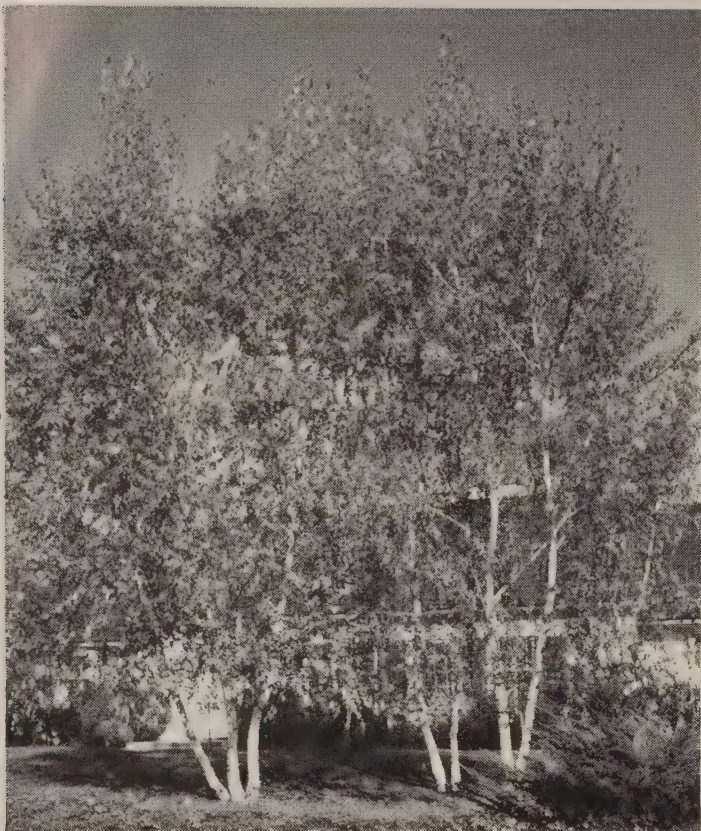

VIBURNUMS (*Fragrant Snowballs*)

Viburnum Burkwoodi. Rosy pink flower clusters are intensely fragrant, fade to creamy white with age. Foliage and habit neat.

V. carlesii. Fine small shrub with gray-green foliage turning brilliant red in fall. Flower clusters numerous, attractive and delightfully fragrant.

VIBURNUM BURKWOODI

WHITE BIRCH

BIRCH (Betula)

Clump Birch. White birch, grows in clump form for naturalistic plantings. Three or more stems (see picture).

Cutleaf Weeping (B. Laciniata). The most graceful and beautiful of all weeping trees. White bark on older wood.

PINK FLOWERING DOGWOOD

CARMINE CRAB

CHERRY, Japanese Flowering (Cerasus)

The flowering cherries are particularly beautiful because of the very large soft colored blossoms, followed by attractive foliage. They are worthy of a greater place in landscape use.

Amanagowa. Semi-double. Light pink; pyramidal.

Kwanzan (Prunus sekiana). Double dark pink blossoms. 30 ft. Attractive foliage. Every yard should have one.

Mt. Fuji. Semi-double white flowers borne in clusters. Tree spreading in habit.

Naden. Very double, deep pink.

Double Flowering Weeping Cherry. A beautiful weeping tree, topgrafted at about 6 feet. The blossoms come before the leaves giving the appearance of a pink fountain. The double pink blossoms make a very charming display. **\$3.50 each.**

BLIRIANA PLUM

Single Weeping Cherry: Shidare-Higan (P. subhirtella Pendula). Like the double flowering excepting the blossoms are single and the branches a little more graceful. **\$3.50 each.**

CRABS, FLOWERING (Malus)

Bechtel's Double Flowering Crab (M. ioensis plena). Large, double, pink, roselike flowers, remarkably beautiful and fragrant.

Carmin (Atrosanguinea). Very profuse bloomer. Graceful habit; carmine flowers; red branches.

Hopa. A beautiful upright growing tree with attractive foliage. Entirely covered with crimson buds followed by rose colored flowers in April. Fruit red inside and out, hanging on until late autumn.

Parkman (M. halliana parkmanii). Double pink and red blossoms; glossy leaves; spreading habit.

Purple Crab (M. purpurea). Tall; purple leaves, branches and fruit.

Scheidecker (M. scheideckeri). Free blooming; pale pink blossoms.

PLUM, FLOWERING (Prunus)

Bliriana. Has very large, beautiful double pink blossoms that appear in early spring. The foliage is a rich purple turning to a greenish tint in summer, with purple under foliage. A very valuable tree.

Pissardi. Dark purplish foliage. Fruit medium size and edible. The best known flowering plum.

FLOWERING CRABAPPLES

LABURNUM VOSSI (GOLDEN CHAIN)

GOLDEN CHAIN (Laburnum)

Vossi. A hardy low growing tree with beautiful racemes of bright yellow flowers 12-18" long.

HORSECHESTNUT (Aesculus)

White Flowering Horsechestnut (Aesculus hippocastanum). A very beautiful tree forming a round head. Large showy white flowers in spring.

RED FLOWERING HORSECHESTNUT. This is a slow growing dense shade tree with beautiful pyramidal cones of red flowers. 4 ft. \$3.50.

LINDEN (Tilia)

An ideal shade tree, forming a large head. Has beautiful large leaves; very fragrant blossoms.

LOCUST (Robinia)

Black (R. pseudoacacia). Large tree with feathery foliage and drooping racemes of fragrant pea-shaped flowers.

AMERICAN LINDEN (BASSWOOD)

MAPLE (Acer)

Norway (Acer platanoides). The hardy nature of this tree as well as its beautiful deep green foliage and well-shaped head makes it an outstanding shade or street tree.

Schwedler (A. Schwedleri). This is a bright red leaved Norway. The foliage shading to greenish bronze in summer.

Silver or Soft Maple (Dasycarpum) A very hardy variety with comparatively small semi-cut leaves, bright green on surface and silver underneath. Grows rapidly and large.

SCHWEDLER MAPLE

MOUNTAIN ASH (Sorbus aucuparia)

Erect growing trees; smooth bark; fine leaves; dark orange-red berries; very attractive. Popular.

OAK (Quercus)

Scarlet Oak. (Q. coccinea). Rapid growing, hardy tree especially noted for its beautiful fall coloration. It is attractive at any season because of its good habits of growth and its deeply lobed leaves in summer.

POPLARS (Populus)

Write for quantity prices for windbreaks or screens.

Bolleana. Silver green leaves covered on under side with silver bloom. Tall erect growing tree. Beautiful.

Carolina (P. Eugenei). Rapid growing, wide spreading tree with bright green foliage.

Lombardy (P. nigra italica). Erect growing tree; dark glossy green foliage. Forms a striking shaft when large. Ideal for accent and windbreaks.

PLANETREE (Platanus)

European Sycamore (P. Orientalis). A lofty, wide spreading tree; highly ornamental; handsome foliage; free from insects and disease.

TULIPTREE (Liriodendron tulipifera)

Beautiful green fiddle shaped leaves; orange-yellow tulip-shaped blossoms. Large spreading tree. Fine for shade.

KWANZAN CHERRY

Deciduous Shrubs

Valuable plants for the flower border, for hedging and cut flowers. Use them to screen that undesirable view. Enjoy their thrilling season beauty.

AZALEAS

Showy shrubs of medium size; very effective massed or combined with evergreen shrubs. Prefer partially shaded location and acid soil.

Sturdy 15" plants.
\$2.50 each.

Azalea altaclarensis. A sturdy variety producing brilliant yellow flowers of great fragrance; foliage becomes bright red in autumn.

A. mollis. Orange, apricot, and yellow blooms borne in great profusion; fragrant.

A. occidentalis (Western Azalea). The hardy, native variety producing flowers of exquisite fragrance, in shades of light pink and white marked with lemon and buff.

All shrubs below, unless otherwise priced, are \$1.00 each; 3 for \$2.75; dozen \$10.00.

ALTHEA, ROSE OF SHARON (*Hibiscus syriacus*)

The Altheas are a valuable addition to the shrub border since they bloom at a season when blossoms are scarce. They are very showy and bloom over a long period. Colors: Red, Purple, White, Pink.

CRANBERRY BUSH (*Eup. Viburnum opulus*)

Red berries, resembling cranberries, which stay on till late fall.

DEUTZIA

Pride of Rochester. Double white flowers. Excels others in size of blossoms and profuseness.

HYDRANGEA

Otaksa. Blue or pink, depending on soil acidity. Large blooming size. Sturdy 18" plants. \$2.00 each.

DEUTZIA, PRIDE OF ROCHESTER

AZALEA IN VARIETY

BUDDLEIA CHARMING

Hydrangea "P. G". Popular cone-shaped type. \$1.00 each, 3 for \$2.75.

BUDDLEIA (Butterfly Bush)

We offer an exceptional list of charming new Butterfly bush in an assortment of colors. These are far superior to the older types commonly used. They bloom over a long time and in great profusion when other flowers are scarce in the gardens. Plants offered are from 2 1/4-inch pots which we find are best suited for transplanting. Will bloom the first year. 50c each, 3 for \$1.35. Excepting Royal Red.

ELEANOR

Large compact striking Eleanor blue flowers. One of the hardest and profuse blooming buddleias. Medium tall growing. Highly recommended.

NEW DUBONNET

Tall, fast growing buddleia with large flower spikes in abundance. Dubonnet color or deep crimson-violet that glows in the sunlight.

PINK CHARMING

The only true pink buddleia. Extra large, long graceful flower spikes of lovely bright pink. Vigorous and profuse blooming.

NEW ROYAL RED BUDDLEIA

Most beautiful of all butterfly bushes. Thrilling flower spikes which glow like sparkling rubies in the sunlight. Strong pot plant will bloom this summer.

Price: 75c each, 2 for \$1.25.

FLOWERING QUINCE

FLOWERING QUINCE

Brilliant fiery orange-scarlet daisy like flowers 1 to 1½ inches in diameter completely fill the branches in early spring. Spectacular in brilliance and beauty. Guaranteed hand propagated cuttings from choice red strain. Much better than seedling and well worth the little additional cost. **\$1.00 each, 3 for \$2.75.**

BEAUTY BUSH (Kolkwitzia)

Graceful, tall shrub with arching branches. Thousands of tubular shaped bright pink flowers are produced along the entire length of the branches in clusters. Extremely hardy, easy to grow, highly recommended. **\$1.00 each, 3 for \$2.75.**

SPIREA, \$1.00 each; 3 for \$2.75.

Anthony Waterer. Everbearing. Large flat crimson blooms.

Bridalwreath (prunifolia). Small pearly-white double blooms on graceful branches; foliage round and shiny.

Thunbergi. Beautiful delicate white sprays on graceful slender branches.

Vanhoutte. Upright. Clusters of white blossoms. Most widely used.

BELLE DE NANCY

MME. LEMOINE

LUDWIG SPAETH

FRENCH LILACS

BEAUTY BUSH

LILACS

We offer a complete color group of lilacs. **Plants, \$1.25 each, 3 for \$3.50.**

Alphonse Lavallee. Double. Blue. Tall, robust growing; makes a very shapely bush. Panicles long, broad, shapely, and compact. Opens an intense blue, but as the florets develop it changes to a beautiful shade of lavender.

Belle de Nancy. Double. Large, satiny rose, showing white towards the center. General color effect deep pink.

Congo. Immense, single, wine-red. A splendid growing variety that produces immense blooms in the greatest profusion. The blossoms, when they first open and for several days are sensational because of their great size and rich color. Then the color changes to a dull purple.

Jean Mace. Double. Bluish mauve. Very pretty Lilac. A tremendous bloomer. Immense, full panicles. It just seems as though there couldn't be another floret crowded in. Very thrifty bush that grows erect and shapely, and is very ornamental even after the blooms are gone.

Mrs. Ellen Willmott. Double. A large bush with very stout limbs and large, thick, light green leaves. The flowers come in immense panicles of creamy white, made up of double florets almost twice the size of those of any other double white except Edith Cavell.

Mme. Lemoine. Double. One of the best of the double white; a pure snow-white without tinge of cream. Foliage dark green. Panicles large, long, erect; large individual florets.

Mme. Antoine Buchner. Semi-double. It is a late tall-growing variety with long shapely open trusses. When seen in the bud it is a decided deep pink, but as the florets open they are a pinkish white heavily overlaid with intense rosy pink.

Paul Thirion. Double. The trusses are large and composed of very double florets of an intense claret-rose. The buds are bright red, not purple. A red blending into rose.

President Grevy. Double. Light blue. Immense panicles; very double and symmetrical. A clear, soft, delicate blue—President Grevy is one of the older sorts and still one of the most desirable.

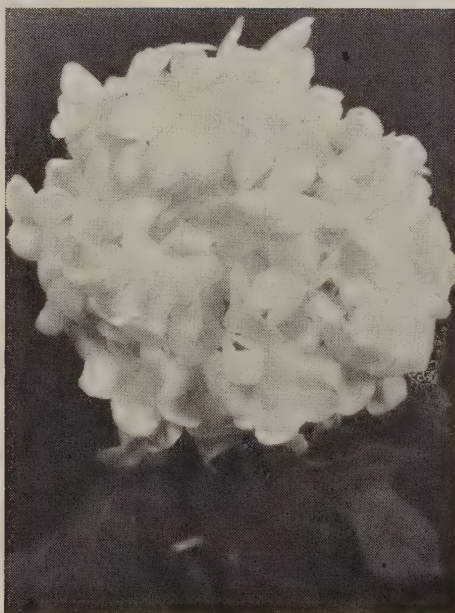

Souv. De Ludwig Spaeth. Single. Red. Although one of the oldest of the improved Lilacs still it is one of the very best Lilacs grown. It seems impossible to get a red that has so many good, and so few bad qualities as Ludwig Spaeth. Panicles long and held erect well out from the foliage. Color a brilliant intense rich purple-red, that holds up well in the sun and lasts a long time. Bush large and a very profuse bloomer. A wonderful Lilac.

FORSYTHIA

TREE HYDRANGEA

SNOWBALL

**ALL SHRUBS \$1.00 EACH,
3 FOR \$2.75**
Excepting as Otherwise
Marked.

FORSYTHIA

This delightful early blooming shrub should be in every garden.

MOCKORANGE (Philadelphus)

Virginal. Semi-double white; continuous bloomer.

SNOWBALL (Viburnum)

Opulus sterilis (Common). The large flowered snowball familiar to all. Blooms in May.

SWEET SHRUB (Calycanthus)

An unique shrub with large glossy leaves from the axils of which spring odd, spicily fragrant chocolate-red flowers.

KASHGAR TAMARIX (Variety Hispida)

This, loveliest of the tamarix, is covered with delicate, bright pink sprays of flowers in July, August and September when shrubs are comparatively bare of flowers. Beautiful silver evergreen-like foliage.

TAMARIX AFRICANA

Early light pink blossoms; deep green foliage and chocolate colored bark.

WEIGELIA

Eva Rathke. Bright deep crimson flowers blooming most of the summer; bronzed foliage.

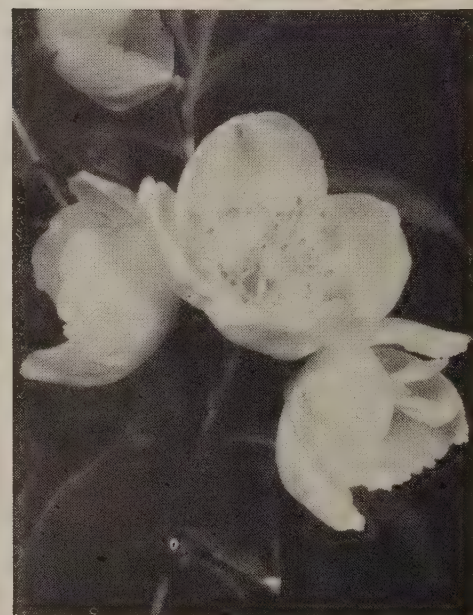

Rosea. Light rose colored blossoms; not so dwarf as Eva Rathke. Profuse blooming.

TREE HYDRANGEA P. G.

(H. paniculata grandiflora)

5-7 ft. Very hardy, popular shrub. The tip of every branch in July develops a large white flower 8 to 12 inches long, nearly as thick. Flowers last until November, turning pinkish and bronze toward end of season. Hardy everywhere and always a good bloomer. Can be pruned each spring as flowers are borne on new wood. **\$2.00 each.**

MOCK ORANGE

RICH & SONS PAY THE POSTAGE

ANEMONE

ANEMONES

Anemone Alba. Purest single white with yellow center.

Anemone Queen Charlotte. Abundant semi-double flowers, broad and perfectly formed. LaFrance pink.

CARNATIONS

HEUCHERA, CORAL BELLS

Anemone Whirlwind. Excellent double white flower.

HARDY CARNATIONS. Beautiful strain of hardy pinks, which resemble most of all the indoor carnations, blooming in great abundance all summer, in the most magic colors, flowers being semi to full double. The sweetly scented flowers are excellent for cutting, especially desirable for table decorations. By cutting all flowers off, the life of the plant is maintained and it renews itself. Red, Pink, White colors.

BLEEDING HEART. Spectabilis. An old-fashioned favorite; its long racemes of graceful heart shaped pink flowers in May or June are always attractive; it is used largely for forcing, and is perfectly at home in any part of the border, and especially valuable for planting in the shade. Height 1 to 2 feet. Perfectly hardy and easy to cultivate.

PERENNIALS

50c each—\$5.00 dozen.

BLEEDING HEART

PRIMROSES

PRIMULA, Hardy Primrose. There is no assemblage of plants that will reproduce the lovely show of the primulas on the hillside or rock gardens in semi-shade. They can be obtained in every color and tone that one can imagine. **Mixed Colors.**

DELPHINIUM, Pacific Hybrid. This is the most beautiful of the delphiniums. The stems are wiry, strong enough to resist high winds. Under good conditions, these plants will produce beautifully proportioned spikes 3 to 5 feet in height. The individual flowers are large, 2 to 3 inches in diameter, of delicate shadings and of good form and substance. We strongly recommend the plants both for the bright landscape and for cutting. **3-yr. clumps \$1.00 each.**

PACIFIC HYBRID DELPHINIUM

GENTIANA ACAULIS CLUSI

Perennials: 50c each, 3 for \$1.35, dozen \$5.00 (unless otherwise noted).

GENTIANA ACAULIS CLUSI.

One of the famous Alpine gentians. Huge dazzling gentian-blue goblets spotted with sprightly green cover the dwarf green carpet. The acaulis type of Gentian is the best all-around Gentian, being long lived and not difficult to grow.

ACONITUM napellus Spark's Variety. Glistening violet blue flowers on 4 to 6 ft. stems during July and August.

ALYSSUM, Saxatile Compactum. Dwarf Golden Tuft, Basket of Gold. Very compact. One of the showiest of spring flowers. Height 9 to 12 inches. April and May.

LUPINS, New Russell Lupins. Russel's Lupins bear enormous well-rounded, symmetrical flower spikes, often 3 feet or more in length, each spike a mass of gorgeous color. The colors include shades never before seen in Lupins. Individual flowers are above average in size and are very closely set on the stem. All the flowers on a spike open at one time and they keep well when cut.

TRITOMA (Red Hot Poker). The rich orange flowers are always in big demand on the cut flower markets. We have never known of any surplus of real good Tritomas. If grown in fairly rich soil, a plant will produce several first class quality flowers. Tritomas should be included in every planting of summer cut flowers.

CUSHION CHRYSANTHEMUMS

60c each, 3 for \$1.65, dozen \$6.00.

A group of low-growing 'Mums, forming mounds of blooms, reminding one of the old-fashioned Azalea. The plants grow about 10 to 12 inches high and spread 2 feet or more. They flower quite early. All during September they are literally covered with hundreds of flowers which last over a long

period. With a little straw protection, the plants are quite hardy. All are descendants of the Chrysanthemum Amelia, more often called Pink Cushion 'Mum.

Pink Cushion. Light pink flowers by the hundreds in mounds, 2 feet across.

GAILLARDIA, Blanket Flower. This will produce from early spring until late fall a continuous profusion of brilliantly colored flowers.

RED HOT POKER
TRITOMA

LUPINS

NEW DWARF CHRYSANTHEMUMS

60c each, 3 for \$1.65, dozen \$6.00.

Little Bob. A charming low-growing garden Chrysanthemum from England which will surely be grown by everyone interested in 'Mums. The plant spreads to about 24 inches in diameter and develops into a perfectly symmetrical mount. In early autumn hundreds of small mahogany-bronze double button-like flowers appear on short stiff wirelike stems. When in bloom the plant is completely covered with flowers. In appearance, far superior to the well known Cushion 'Mums. We are sure you will like this new introduction.

White Cushion. At opening, show a delicate pink, turning pure white as flower develops.

Yellow Cushion. Pure gold yellow, very brilliant, hundreds of blooms. Early flowering and long lasting.

GAILLARDIA

PEONIES

\$1.00 each, 3 for \$2.75.

Avalanche. A choice creamy white coming into bloom late in the season. The flower is large and compact, with a collar of creamy white petals surrounding a center of delicately tinted lilac-white petals occasionally edged carmine. A choice cut flower and also a fine show flower.

Claire Dubois. A beautiful satiny pink particularly valuable because it is late and an excellent keeper.

Karl Rosenfield. The finest all around deep red peony. Blooms early, large perfect blossoms on tall straight stems.

Reine Hortense. A uniform hydrangea-pink, with guard and center petals marked crimson. This is a variety that gives universal satisfaction and is both a show and garden variety. The plant is tall with long stiff stems. The flowers are slightly fragrant. A midseason variety.

Rosy Dawn. A single peony that opens a soft pink, fading to pure white.

Sarah Bernhardt (Lemoine, 1906). Color apple blossom pink. Very distinct variety.

Mixed Colors at 40c each, 3 for \$1.00 (No choice of color.)

\$1.50 each, 3 for \$4.00, postpaid.

Primevere (Lemoine, 1907). Bomb type; mid-season. Large full blooms on tall stems. Outer petals deep sulphur-yellow, often with a tuft of lingulated petals in center. Some claim it to be the nearest approach to a yellow peony of any in the Chinensis section.

Souvenir de Louis Bigot. Flowers large, convex, rose-form with fringed petals. Bright Bengal-rose, slightly tinged carmine at the base, changing to salmon-pink with silvery reflex. The color of this pink Peony does not fade in the sun.

SHASTA DAISY—Esther Red

The first fully double "Shasta Daisy", with large pure white flowers, resembling a double Pyrethrum, on strong 2-ft. stems. Very floriferous, invaluable for border decoration or cutting purposes. One of the finest of recent introductions from England. May to Oct. Stock very scarce, and will be for a year. **75c each.**

CHRYSANTHEMUMS

These fine early Chrysanthemums were especially selected for you from the fields of The Wayside Gardens. They are early flowering, hardy and specially desirable field grown plants, that will bloom the first year in profusion.

50c each, 3 for \$1.45, dozen \$5.00.

Autumn Lights. Coppery bronze, semi-double blossoms with a gleaming orange overcast, cover the compact branchy plant. Healthy, attractive, dark green foliage. Compact, tidy growth, plus unusual hardiness, feature this useful introduction. Height 1½ feet.

Burgundy. Rich cerise-crimson, acquiring deeper amaranth tones in the center, describes the flowers of this lovely double, sweet-scented Chrysanthemum. The fine clusters of bloom are on heavy stems. Height 2½ feet. In full flower October 5th.

Cydonia. Brilliant orange-mahogany blooms of fine double form.

Ember. In color, a brilliant glowing bronze that stands out conspicuously in comparison with any others in this color. It is, in fact, a combination of coral and orange shades that cannot be described accurately, ever changing with the light, but always compelling. The bloom is not too double and is of excellent form, 2½ inches in diameter. Flowering in mid-October. Height 2½ feet.

CHRYSANTHEMUM

Eugene A. Wander. Have you longed for a big, hardy 'Mum that would flower before those early October frosts? Well, here it is—a brilliant, glistening golden yellow beauty in full bloom by September 20th and so free that the stocky plant is almost obscured by its branching clusters of perfectly formed double flowers. Hardy and easily grown, it requires no special pinching or handling to produce flowers 4½ to 5 inches across—larger if disbudded. Fine also for pot culture.

Jean Cumming. Large flowers of purest white, with softest yellow and bluish shading at the center of the buds. Growth erect and wiry, height medium. Exceptional keeping qualities.

Lavender Lady. This fragrant flower brings true lavender to the garden Chrysanthemums. No trace of mauve, pink, or magenta appears under any light conditions. The silvery lavender flowers are 3 inches or more across and appear in perfect branching sprays. Unusually hardy. Height 2½ feet. In full flower October 8th.

Milky Way. Another Bristol departure and the forerunner of a distinct and valuable type. Remarkable for the intensity of its milk white coloring in the open flower, contrasting with the creamy yellow buds; again for the luxuriant rich green foliage clothing the stem right down to the soil. The handsome, semi-double, informal blossoms, with broad, overlapping petals of unusual texture, carried in branching sprays of 5 to 6, are more frost-resistant than any other early white kind. Plant is very hardy and vigorous. A different and valuable addition—in full flower late September. Height 2½ to 3 feet.

Mrs. Pierre S. du Pont III. The quality of iridescence is so pronounced in this fine new Chrysanthemum that accurate description is difficult. The dominant shade is a soft peach tint blended with mauve undertones; the whole overcast with an indescribably luminous sheen. It is entirely distinct and altogether lovely. The large, full, perfectly formed flowers are carried on tall, branching stems, making a strong, sturdy 2½-foot plant. In full flower in early October, it will prove a grand addition to the garden and an invaluable cut flower variety.

Pale Moon. Delightful, fluffy, sulphur-yellow blossoms completely cover the plant. Loosely double flowers, 2½ inches across, of excellent keeping quality. The aroma is that of butternuts. Height 2 feet. In full flower October 5th.

Symphony. Mauve-rose overcast soft coppery rose, with the sheen of a damask silk. The flower in maturing acquires silvery lilac and faint copper tones, very lovely but elusive and impossible to describe with accuracy. The flowers are large, 3 inches across, double, nicely formed, and carried on heavy, sturdy stems, several to a spray or cluster. Free-flowering. Height 2½ to 3 feet.

The Moor. Best described as amaranth-purple or port-wine-red. It is noted for its intensity and brilliance in the garden. Flowers 3 inches across, double, produced freely and keep well when cut. In full flower in late September. Height 2 feet.

AQUILEGIA (COLUMBINE)

GEUMS, RED WINGS AND
LADY STRATHEDEN

LEO SCHLAGETER PHLOX

PERENNIALS

50c each, 3 for \$1.35, \$5.00 dozen, excepting where otherwise noted.

We are offering a selected list of the better perennials at popular prices. There is a great deal of enjoyment to be derived from these plants which year after year bring forth a shower of beauty.

COLUMBINE. Their informal elegance and stately, striking beauty reserve for the Aquilegia (Columbine) a position among plants that they shall never relinquish. Aside from their fine utility as a cut flower, they are without parallel when one desires to arrive at a mild yet captivating display in the hardy garden.

Mrs. Scott Elliott's Long-spurred Hybrids.

Giant Long-spurred Hybrids.

GEUMS

Mrs. Bradshaw. A splendid variety, with large, double flowers of a fiery orange-red, blooming nearly all summer.

Lady Stratheden. A new introduction of great merit. Rich golden yellow blossoms. A splendid cut flower.

Red Wings. Brilliant strawberry-red with bright yellow anthers. Blooms best in June and July but flowers intermittently all summer.

Rijnstroom. Large brilliant coppery orange flowers on 30-inch stems from May to Sept., with splendid foliage.

HEUCHERA, Coral Bells. Blooms in May, June, 12 to 18 inches. Flowers bright crimson; very free flowering. Nice for cutting. Excellent for rock garden.

ARMERIA, caespitosa. Deep pink flowers freely produced from a neat cushion-like plant.

VIOLA

Jersey Gem. Large flowered, sweet scented.

VIOLETS

Prince of Wales, Odorata. Royal purple.

HARDY PHLOX. See pictures of following on this page:

Moonlight, Leo Schlageter, Feuerbrand, Daily Sketch, Chieftain, Royal Purple.

Salmon Beauty. An outstanding phlox, deep salmon-pink with white eye.

THREE NEW INTRODUCTIONS

San Antonio. Vivid and brilliant flaming carmine heads, shaded plum red. The very finest of this color group. Remarkably vigorous grower.

Harvest Fire. Brilliant salmon orange. Heavy, extremely healthy foliage. The heads are very large. One of the best.

Tigress. Orange-scarlet.

PERENNIAL PHLOX, *Phlox decussata*.

The tall growing perennial phlox supplies much needed color in the border or garden during an otherwise dull period. We have selected an especially fine group for our customers. 40c each, \$4.00 dozen.

CAMELLIAS

Camellias are comparatively easy to grow but a few suggestions may prove helpful.

1. If your soil is not naturally acid it should be made so by application of acid fertilizer. Applications should be made during early spring months or late fall.
2. Water amply during summer and provide sufficient drainage during winter to prevent bud dropping.
3. Pick all the blooms you desire but do not cut long stems since Camellias are slow growing.

Chandleri elegans. Most popular of the peony-flowered camellias. Soft rose with a center of tightly curled petals. Flowers are variously marked with white, making a soft and interesting contrast on the large flowers.

Cheerful (Otome Red). Most popular double red camellia on the market.

Colonel Firey. Very popular red camellia—deep bright red with many petals arranged close together, making a flat-topped exquisitely symmetrical flower.

Daikaigura. A beautiful peony-shaped flower, deep rose, splotted with white. Central petals twisted and curled. One of the first to bloom.

Dante (Pine Cone White). Full double, very symmetrical, high center, pure white, medium large. Blooms March.

Elena Nobile. Unique flame-red double camellia. Free-growing and late flowering. Open flowers show a few golden stamens.

Grandiflora Rosea. Queen of the singles with clear rose pink outer petals and golden stamens. 6" across. Picture on back cover.

Kumsaka. Large double clear rose pink with prominent stamens.

Lena Superba. Large semi-double red.

Magnoliaflora. Large semi-double, shading deep rose to light blush.

Matsukasa (Pine Cone). Shaped like a pine cone, high centered regular formation, rose pink blotched with white, medium large.

Mikenjaku. Large deep rose splashed with white; prominent stamens. Popular but scarce.

Monjishu Variegated (Donkilari). Semi-double, fairly symmetrical, shows stamens, deep red with large clear white blotches, sometimes solid red, large.

COLONEL FIREY . . . \$7.50

KUMASAKA . . . \$4.50

Pink Perfection. Shell pink flowers with very symmetrical petaling.

Prof. C. E. Sargent. Unusual scarlet flower in full peony form. Free flowering semi-dwarf shrub.

Purity. Large double flowers of ivory white.

Regina Des Gigantes. Very fine, free flowering semi-double clear pink.

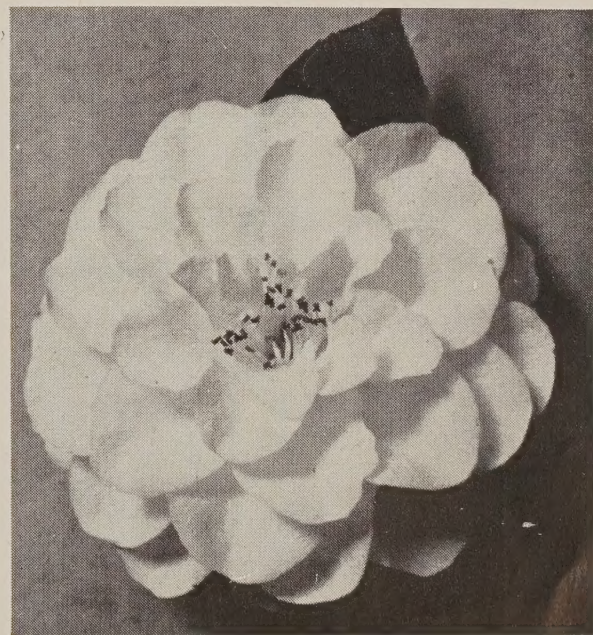

Sarah Frost (Red Clarke). Full double symmetrical, red, medium large.

Vallevareda. Full double very symmetrical, delicate pink center, deep pink outer petals, large.

Wakanoura Red. Large single rosy red with prominent stamens. The foliage is attractively waved.

Waratah. Large blood red flowers having a single row of ray-like petals surrounding a center cluster of petaloids and yellow stamens.
